DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-42 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, none of the prior art either singularly or in combination teach or fairly suggest a display device for dividing each frame into a number of subframes that includes among other features, a correction means corrects a subframe signal, representing the first one of the subframes that make up a current frame, by reference to a subframe signal representing another one of the subframes of the current frame, the another subframe being equivalent to the last subframe of the previous frame, and wherein the correction means corrects a subframe signal, representing a non-first one of the subframes of the current frame, by reference to a subframe signal representing the previous subframes of the current frame that has been displayed just before the non-first subframe.

With respect to claim 2, none of the prior art either singularly or in combination teach or fairly suggest, a display device for dividing each frame into a number of subframes and displaying one of the subframes after another, that includes among other features, a correction means that corrects a subframe signal, representing the first one of the subframes that make up the current frame, by reference to a single intensity level of a subframe signal representing the last one of the subframes that make up the
